Re: 2010-2011 ESG Award Amount

Effective 10-1-2010, MSHDA will be awarding CoC funding based upon the following factors:

- The proportion of need based on homeless count + census (50% poverty);
- Changes for 2010 were based upon 7% of the difference between the 2009 actual allocation to CoC and the calculated allocation based on "need";
- Where the change was extreme, a factor was used to moderate the change.
- All new/re-allocated dollars were spread according to the "need" allocation formula.
- Calculations included both State and Direct ESG grants where both sources of funding applied.

These numbers will be refreshed annually and awards will be made based upon them.

The **Muskegon CoC Body** will receive a total of **\$78,614** for **October 1, 2010 through September 30, 2011**.
